ESCONDIDO DOG PARK TO CLOSE TEMPORARILY

Escondido city officials have closed Mayflower Dog Park after determining that a dog abandoned at the park has died of Parvo. The park will remain closed until further notice while various decontamination options are evaluated.

This morning Escondido Humane Society staff notified Robin Bettin, Assistant Director of Community Services, that they had rescued an abandoned dog from the dog park earlier this week. The dog has since been diagnosed with Parvo and has died.
